

CONFIDENTIAL INVESTMENT MEMORANDUM

ECO-NOMMO Infrastructure and AXPT.io | NOMMO LIMPOPO XCHANGE

For Strategic Contributor Consideration

Prepared for: Eric Chinje
May 9th, 2025

Executive Summary

This memorandum outlines a privileged investment opportunity into the foundational buildout of the AXPT.io gold-backed stablecoin ecosystem and Nommo Limpopo Xchange (NLX), a regenerative digital and on-ground economic infrastructure built upon indigenous futurism, planetary ethics, and Pan-African financial sovereignty,

The offering invites a leading contributor to help activate and guide a stablecoin platform backed by mineral assets beginning with gold mining reserves in Southern Africa paired with a telecom + digital finance infrastructure for artisans, farmers, and merchants across the continent.

This strategic moment also enables tokenization of exclusive cultural assets, such as a \$20M private collection, under a new economic model rooted in cultural capital, gold reserves, and regenerative agriculture.

Opportunity Thesis

Why Now?

African monetary policy is entering a decentralized phase. With increased currency instability and rising interest in stablecoins and commodity-pegged assets, the time is right for an Indigenous-designed infrastructure.

You will be a founding architect of a platform built on trust, dignity, and real assets, bringing credibility and seasoned oversight to its governance and implementation.

This hybrid approach of a blockchain finance + real economy (mining, agriculture, telecom, culture) positions this project uniquely in the impact-investing and digital finance space.

Structure of Contribution 1

Capital Need: \$50,000 - \$100,000

Purpose: Infrastructure setup for gold production and telecommunications in Southern Africa.

Terms: Tokenized and stake, redeemable after 6 months with 10% benefit at maturity.

Phase I - Operation

STRATEGIC ACTIVATION
INVESTMENT SOUTH AFRICA

Pages 3 and 4 open the gate:
A call to invest where culture breathes, and sovereignty builds.

They outline contribution opportunities tied to early-phase activation. Each opportunity is a seed; timed, placed, and ready for meaningful, measurable impact.

Structure of Contribution 1A

Phase I I - Core

CAPITALIZATION OF STABLECOIN
RESERVES (GOLD PRODUCTION)

Option A: Equity Structure

Capital Need: \$1.5 Million

Purpose: Directly backs gold mining production for AXPT.io stablecoin reserves.

Structure: Platform based Profit-sharing (e.g., 60/40) or tailored strategic share.

Governance: Formal seat on AXPT.io Council of Elders.

Option B: Fixed-Return Structure

Capital Need: \$1.5 Million

Structure: Fixed return of 20% over a 12-month investment term.

Redemption: Guaranteed via tokenized treasury instruments or asset-backed reserves.

Unique Differentiators / Strategic Advantages for Early Contributor

Gold-Backed + Culture-Backed:

Combines hard asset stability with soft power value through tokenized art, crops, land use, and social currencies.

On-the-Ground Activation:

Telecom, mining, agriculture, and education and not just digital layers, but real infrastructures we control.

DAO-Governed Ethics:

Enshrines Pan-African regenerative principles in its constitution and smart contract rules.

Platform Integration:

Option to tokenize select assets or IP aligned with our Pan-African digital Infrastructure.

Global Utility, Local Sovereignty:

Designed for everyday usage by farmers, traders, artists, and merchants across Africa and the diaspora.

Governance Role:

Permanent seat on the Council of Elders, an advisory and cultural-economic oversight body guiding the AXPT and NLX direction.

Visibility & Influence:

Co-branded features, thought leadership opportunities, and high-level engagement in the platform's launch and global presence.

Final Notes

This is an invitation to co-design and activate a sovereign African economic platform rooted in ancient wisdom and modern strategy. Your leadership, resources, and credibility can be instrumental in building this foundation.

We believe your presence at this stage would not only ground the financial governance of the platform with credibility and strategic foresight, it would also elevate the narrative we are building: one that restores cultural dignity, generates real value on the ground, and repositions Africa as the epicenter of planetary regeneration and economic innovation.

We welcome the opportunity to speak further and tailor an engagement structure that best reflects your vision, priorities, and unique contribution.

With deep gratitude and vision,

Jamal Ward

Founder, AXPT.io and
Nommo Limpopo Xchange
